THE YEAR 1866 WAS SIGNALIZED by a remarkable incident, a mysterious and inexplicable phenomenon, which Ika Medium  
21 pt, English doubtless no one has yet forgotten.

Not to mention rumors which agitated the maritime population, and excited the public mind, even in the interior of continents, seafaring men were particularly excited. Ika Compact  
Narrow 21 pt, English

Kaufleute, Reeder, Schiffskapitäne, Skipper und Master in Europa und Amerika, Offiziere der Kriegsmarine aller Länder und schließlich die Regierungen der verschiedenen Staaten beider Kontinente nahmen die Vorfälle außerordentlich ernst. Seit einiger Zeit schon waren mehrere

Schiffe auf hoher See „einem gigantischen Etwas“ begegnet, einem langen, spindelförmigen Gegenstand, der bisweilen phosphoreszierte und weitaus größer und schneller war als ein Wal. Ika Regular 16 pt, Deutsch

Los hechos relativos a estas apariciones, consignados en los diferentes libros de a bordo, coincidían con bastante exactitud en lo referente a la estructura del objeto o del ser en cuestión, a la excepcional velocidad de sus movimientos, a la sorprendente potencia de su locomoción y a la particular vitalidad de que parecía dotado. De tratarse de un cetáceo, superaba en volumen a todos cuantos especímenes de este género había clasificado la ciencia hasta entonces. Ni Cuvier, ni Lacepède, ni Dumeril ni Quatrefages hubieran admitido la existencia de tal monstruo, a menos de haberlo visto por sus propios ojos de sabios.

Ika Regular 12 pt, Español

À prendre la moyenne des observations faites à diverses reprises, — en rejetant les évaluations timides qui assignaient à cet objet une longueur de deux cents pieds, et en repoussant les opinions exagérées qui le disaient large d'un mille et long de trois, — on pouvait affirmer, cependant, que cet être phénoménal dépassait de beaucoup toutes les dimensions admises jusqu'à ce jour par les ichthyologistes, — s'il existait toutefois. Or, il existait, le fait en lui-même n'était plus niable, et, avec ce penchant qui pousse au merveilleux la cervelle humaine, on comprendra l'émotion produite dans le monde entier par cette surnaturelle apparition. Quant à la rejeter au rang des fables, il fallait y renoncer.

# Двадцать тысяч лье под водой

1866 год ознаменовался удивительным происшествием, которое, вероятно, еще многим памятно. Не говоря уже о том, что слухи, ходившие в связи с необъяснимым явлением, о котором идет речь, волновали жителей приморских городов и континентов, они еще сеяли тревогу и среди моряков.

Ika Compact 26 pt, Русский

Купцы, судовладельцы, капитаны судов, шкиперы как в Европе, так и в Америке, моряки военного флота всех стран, даже правительства различных государств Старого и Нового Света были озабочены событием, не поддающимся объяснению. Дело в

том, что с некоторого времени многие корабли стали встречать в море какой-то длинный, фосфоресцирующий, веретенообразный предмет, далеко превосходивший кита как размерами, так и быстротой передвижения.

Ika Regular 15 pt, Русский

Οι αναφορές που είχαν καταγραφεί στα ημερολόγια διάφορων πλοιών σχετικά μ' αυτή την παρουσία, συμφωνουόσαν με αρκετή ακριβεία στην εξωτερική περιγραφή του εν λόγω αντικειμένου ή ούτος, στην απιθανη ταχύτητα των κινήσεων του, στην εκπληκτική μηχανική ισχύ του, στην ιδιότυπη ζωή με την οποία φαινούταν προϊκισμένο. Αν ήταν κητός, ξεπερνούσε σε ούκο ολα τα κητή που ήταν ως τότε γνωστά στην επιστημή. Ουτέ ο Κυβιεύουτε ο Λασεπεύτ ουτέ ο Ντυμερίλ ουτέ ο Κατρφαζ θα παραδεχόνταν την υπαρξη ενος τετοιου τεράτος – εκτος βεβαια αν το εβλεπαν με τα ίδια τους τα σοφά ματία.

Ika Regular 12 pt, Ελληνικά

Πράγματι, στις 20 Ιουλίου 1866 το ατμόπλοιο Κυβαρνήτης Χίγκινσον της Ατμοπλοϊκής Εταιρείας Καλκούτας και Μπουρνάχ είχε συναντήσει αυτό τον κινούμενο ούκο πεντε μιλια ανατολικά από τις ακτές της Αυστραλίας. Ο πλοιάρχος Μπείκερ νομίσε στην αρχή στην αντικρίζε εναν αγνωστο οκόπελο· ήταν μαλιστα είπομος να προσδιορίσει την ακριβή του θέση, σταν δυο πιδακες νερου εκτοξεύτηκαν σφυρίζοντας από το μυστηριωδες αντικειμένο στον αέρα, σε υψος εκατον πενηντα ποδιων.

# Supported Languages

All of Fontwerk's typefaces support all Latin-based European languages such as English, French, Spanish, German, Czech, Polish and Turkish. Some families also support African Latin, Arabic, Hebrew, Greek or Cyrillic (e.g. Russian, Bulgarian, Ukrainian). If you need further languages or script systems (e.g. Thai, Devanagari, Chinese, Japanese, Korean), we can make custom fonts for you.

# If the content is more important than the form, then a reserved design is required. If a brand wants to exude clarity, simplicity or transparency, then this promise should be made with a typeface that embodies these properties itself.

Ika is such a typeface. Its appearance is drawn in equal parts from humanistic, constructed and geometric influences. Its clear, open and balanced forms, the distinguishable characters according to DIN 1450 "Lettering – Legibility" and a perfectly balanced gray value also make this sans serif one of the most legible fonts in the Fontwerk library. It is the first choice for campaigns where a *Frutiger* may seem too soft or a *Myriad* or *Corbel* may seem too ordinary. As a modern alternative, it is as elegant as *Frutiger* (but has more of its own character), as simple as *DIN* (but appears more balanced) and as striking as *Gotham* (but runs more economically).

The character traits described also explain the typeface's surprisingly short name: "Ika" is an Esperanto term and derives its meaning from the words: solid, transparent, modern and

elegant. Should anyone be reminded of the mythological figure Icarus, they would be wrong, because in contrast to the myth, the design does not fly too high or too low.

Ika's designer Jörg Hemker has already struck a chord with designers with his FontFonts, *FF Sero*, *FF Nort* and *FF Zwo*, not least because of the timelessness of these beautiful typefaces, all four of them defy and buck any trend in order to ensure their longevity. Ika is also a timeless family and, like its predecessors, leaves nothing to be desired in terms of its size. All nine weights from Thin to Ultra are equipped with the appropriate Italics and in addition to the extended Latin language support, the typeface also has Greek and Cyrillic alphabets. Speaking of languages, it is in fact Hemker's largest family to date, covering 107 languages. Complex branding projects also benefit from a

good number of extra characters, four different figure sets (with lining figures as default) and all the relevant OpenType features. Ika is an ideal candidate for use in logos, branding, corporate design, posters, billboards as well as for wayfinding systems and texts, especially in small sizes.

In addition to the main Ika family, Jörg Hemker also drew a **Compact** version that is perfect for when the typeface has to leave its ideal altitude and climb a little bit higher for display purposes.

## Ika Compact flies a little higher than its normal counterpart, which strives for optimal flight altitude.

While its sister consistently subordinates itself to the content of a text, the compact variant pushes more to the fore, but without losing the characteristic humanistic, constructed and geometric elements of its sibling. Ika's extensive language support (expanded Latin range with Greek and Cyrillic alphabets) is still there, as well as its clarity, balance and timelessness.

The similarities end with the glyphs and their contrast. They are significantly narrower and the contrast is less. The x-height is lower, the ascenders and descenders are shorter and the terminals are vertical. All of this results in an extreme compactness and a somewhat more decorative and striking character, but also a little more static character. What is actually intended for tight headlines works also well in small texts as well as in interface design, especially in call-to-action buttons and UI menus and the three widths are perfectly suited to such usage.

Stylistically, Ika Compact moves in the direction of tightly running American grotesque fonts with a rational form principle such as Alternate Gothic or Trade Gothic. Thanks to its

open forms and the distinguishable characters based on DIN 1450, it is more elegant, accessible and clearly legible. Although she sees herself primarily as a family member of the Ika family, Ika Compact also plays out its strengths as a display font independently of her sister.

## Designer Jörg Hemker

Jörg Hemker is a seasoned expert when it comes to knowing exactly what European companies need in terms of typefaces and branding.

Over the years, he has gained vast experience and has designed comprehensive font systems and logotypes for brands such as Bosch, Blaupunkt, Harry, dm, Metabo and Jette Joop. He also developed communications and branding solutions for Deutsche Telekom, ARD, rbb, Rheinische Post, Fresenius SE, Mainova, Mercedes-Benz, Allianz, Commerzbank, State Government of North Rhine-Westphalia, Würth, Alperia, REWE, Jill Sander ... the list goes on, but we'll stop here due to lack of space ;)

A commonality across all of Jörg's typefaces is that they don't ride the latest wave or comply with the newest trend, they are quite simply timeless. Five of his typefaces, FF Zwo (2002), FFZwo Correspondence (2002), FF Sero (2011),

FF Nort (2017) and FF Nort Headline (2020) all appeared in the renowned FontFont library.

He has won pretty much every communication and font design award and accolade out there: DDC, reddot, iF, German Design Award, Communication Arts, ADC New York, amongst many others. Jörg's motto: *Never compete, never compare* (Karl Lagerfeld). We are over the moon that he has found a new home with Fontwerk.

# File Formats, Trial Fonts & Licensing

**FILE FORMATS** — All our typefaces are provided in static .woff2 (OpenType fonts for the use on the web) and .otf (OpenType fonts with PostScript outlines; used for everything else) formats as well as variable fonts. Just purchase the most complete package and the variable fonts are included. For web applications, they are supplied in .woff2, for all others in .ttf format (OpenType fonts with TrueType outlines).

**TRIAL** — The *Trial Fonts* contain all actual characters and features, except for currency symbols. The license allows unlimited and free use during the test phase. Both desktop and webfonts are included, so that you can design mockups, websites and apps etc. and then present them to the client (or to yourself) without having to commit to the purchase. Only when it is clear that the font fits and the actual projects go live or are produced, will you have to purchase the full version. This can then be licensed directly in the name of the client.

**LICENSING** — We strive to offer the simplest and fairest font license model in the industry. You pay once within the agreed license framework and the license is valid perpetually.

**BASE** Our Base License covers the most common use cases: Desktop (1user), Web (10,000 pageviews per month) and Social Media (10,000 followers).

## Desktop (Print)

You can install the fonts on all your devices for use in programs such as *Adobe Creative Suite*, *Figma* or *MS Office* and use them to create digital and print documents/publications or projects to be printed. Each person will need one license.

## Web

You can host the fonts on web servers to use them via css in websites, dynamic web ads, or email marketing. The number of pageviews applies monthly to the maximum total pageviews of all your web projects.

## Social Media

You can publish images or text posts on your social media channels. Your largest channel determines the number of followers to license. If you want to post videos that show the fonts, an additional *Audio-Visual License* will be required.

**EXTENDED** You can add additional users/license volumes and other types of use (Audio-Visual, App).

## Audio-Visual

You can use the fonts in streaming, cinema, TV and similar audio-visual productions/format and/or video posts on social media channels such as *YouTube*, *Instagram* or *TikTok*. For social media it is based on the number of views, for all other productions it is based on the number of expected viewers.

## App

You can embed the fonts in mobile or native apps for different platforms or operating systems. The license is based on the sum of all expected downloads or installations of all relevant app projects.

**ENTERPRISE** For larger or unlimited license volumes and all other scenarios that are not covered by one of these licenses (e.g. passing on to third parties, use in logos for larger organizations, embedding in hardware) an individual agreement is required and we will be happy to provide a quote for this.

Please check [fontwerk.com/licensing](https://fontwerk.com/licensing) or our [FAQ](#) page for further information.

## **We are a Berlin-based font boutique that crafts innovative typefaces full of character. We focus on the highest creative and technical standards – for strong brands, convincing products and inspiring designs.**

Founder Ivo Gabrowitsch heads up an international network of experienced design and technology experts. Working together, we approach any typeface project professionally and reliably, whilst always ensuring we are agile and open to experimentation.

***In a digital world, fonts and typography are the most powerful elements in branding.*** The ever-changing and fast-moving pace of the digital space means that color and imagery have lost their uniqueness. And, individual forms can get completely lost in the confines of the rigid corset of social media. Typefaces with a strong and distinct character convey brand values in any environment subtly, continuously and effectively.

There are two variants of typefaces: retail fonts that are ready-to-use and can be downloaded immediately and custom fonts that are designed on request. There is now a huge variety of retail fonts and they remain the first choice for most

projects. Yet tracking down these high-quality retail fonts and seeing through the thicket of licenses remains a challenge.

This is where we step in with our award-winning library. We already make the promise with our own name: which contains "craftsmanship", "work of art" and Werk as a commitment to providing the precision of German engineering. We offer licenses that are simple, fair and future-proof. Once licensed, our retail fonts are no different from an exclusive custom solution – except for the lower price.

Sometimes, a project or brand may require something a little more special. We love working closely with brands and agencies to find an efficient and impactful custom solution. We are passionate about immersing ourselves in such projects to help create a strong and distinct design that leaves a lasting impression.
